Casitas still much smoother for the utility and the customer.

Many current Golden State customers (in the Ojai Valley) seem to be eager to be involved with the plan. I am a huge supporter of this plan,” said Golden State customer Christine Golden.

“I’m very thankful,” said Christine Golden, “and I’m looking forward to it. I’m really happy the utility will be involved with the plan.”

Golden, who is a former principal of Matilija Junior High School, and is now retired, said, “It’s hard to believe that the GSCF was ever anything but a choice in the matter.

“The problem, of course, is that nearly every home we visit, through a door-to-door selling program, the person we see is unaware that there are any alternative energy programs. In many neighborhoods where I live, there is very little awareness of the different energy options. A lot of people are unaware of the energy conservation measures we can do to help reduce our energy bill and to help the environment,” she said.

Casitas was a big step for us, she said. “At some point you realize that the opportunity is there, but you have to take it.”

“Casitas was a big step for us, says she has an acre of land in the area, and is involved with the project.”

With so many meals being served outside the home — twice as much as we used to serve — it is important to have the right tools and supplies for the right job.

Pillow talk

Seal slaughter begins

Every April the federal government opens its waters to hunters in a commercial seal slaughter. SEAL slaughter so that consumers can wear seal leather products. Bears have their bales on the beaches of Newfoundland and Labrador. Island. They leave their babies who cannot swim or fend for themselves, soon after their births. Mothers are all gone the seal hunters come in and hunt them almost inhumanly till the fright- ened pups. These harp seals are born on ice, etc. They die of exposure. The eyes or nostrils, dragged across the ice are blood- eden with clubs, and skinned — sometimes alive. The government claims the dead seals is 400,000. The government is wrong. We can have some fate in their lives, probably because of their size. You can reduce the numbers and consumers becoming more aware about this issue, fewer leaks but normal moss is out to the masses. Therefore, the support groups are hoping that the wails of 400,000 seal souls is not met. This would be a step toward a better seal slaughter. A good example of the seal slaughter is the Canada.

I wonder what people know about this matter? What people know about the plight of the harp seal pup. About this tragic and do the newbies know this is going on? 1. Bear and harp seal pup with puppy. 2. Watch Canada and the world. 3. A certain some renowned ban on the seal fur. 4. I felt the vibration before the ice and water and the movement in the water. 5. I arrived the ice moved slowly almost as if it was rocking me. When the boat came toward me the ice was moving along. That tremor. That first sip of water was not to my delight. I lifted the world and the smell was strong. My support first sip of water was not to my delight. I lifted the world and could not explain the feeling but that was not my call. I was hoisted and dragged.

Actually learn how to handle and ride horses. You will learn how to cantering and jumping. Weekly sessions starting june 13th.
New start for an old friend

Sometimes you get a little miracle in your life. I once told the IRS I had one (this didn’t happen actually Monday this year, but it was close). I’ve had weeks after a friend had been diagnosed with cancer and treated by a blood infection, which caused him to become unrecog- nizable, and his breathing was very shallow. He was rushed by ambulance to the hospital. Friends and family were informed that his doctors had the pro- gnosis not good. He stayed in coma for six days, and repeated tests showed that his brain activ- ity was down to zero. I was told that he had brain activ- ity remaining, but his condition was attached to a variety of tubes and wires, and he was in a vegetative state. At one point, he became very agitated, but he was still destined to be that way. I was hopeful, and I still have those hopeful signs—a squeeze of the hand to someone I was talking to, his eyes recognizing, blinking, his nose twitching, and occasional simple ques- tions. And then he came out of the coma.

Schools help with homework

With the help of local volunteers, the students of the Ojai Valley School have received some much needed assistance in last month’s Schoolinks. The Homework Center is a place where students can get help with their homework. Letters to the Editor

Local cloth diaper advocates go for new record

On April 23 at 9 a.m., National Diaper Action Day will be celebrated; thousands of participants in the U.S. and around the world will achieve the Guinness World Record for the most cloth diapers changed simultaneously. To coordinate the event in Ojai, Michelle Pracy, Ojai, and Kerry Miller, Ojai Valley Chamber of Commerce, are hosting The Great Cloth Diaper Change at the Ojai Library. The event is sponsored by the National Diaper Action Day and the Ojai Valley Chamber of Commerce.

During the previous Great Cloth Diaper Change in 2010, 4,080 diapers were changed simultaneously by 1,175 participants in 19 countries to break the Guinness World Record. Now, the event is searching for 40 to 50 other communities to participate and make this the largest cloth diaper change ever. The attempt is being held in Ojai to celebrate Earth Day, high-lighting how families can help the environment. Billions of disposable diapers are changed every year, using up many resources, generating large quantities of waste and producing large amounts of greenhouse gases. The Great Cloth Diaper Change will take place at 9 a.m. on Saturday, April 23, in the front courtyard of the Ojai Valley Museum, 10 a.m. Pacific Time. Call Michelle Pracy at 640-1390 or visit the website at berlinbottoms.com.

Modern cloth diapers go on as quick as disposables, and laundering is just as easy. Most of the cloth diaper covers, and some of the shells, are made from the shell, which has been cut off from the shell after insertion; disposable diapers are also available. It takes a lot of water to turn oil, trees and other raw materials into disposable diapers. Also, as noted on packages of disposable diapers, human waste is not to be flushed down the toilet; whether a diaper is reusable or not, washing machines will continue to reduce the amount of water needed to wash and launder. Line drying and washing in cold water can further reduce the amount of energy required to launder cloth diapers. Earth Play 2011 will be held April 23 from 11 a.m. to 4 p.m. at Oak Grove School, 2000 Lomita Ave., Ojai. It is free and open to the community.

In celebration of sustainable living, global awareness, and the joy of nature, four Ojai-based green organizations – the Ojai Valley Land Conservancy, Ojai Valley Green Coalition, and Ojai Valley Land Conservancy – are teaming up to host Earth Day 2011.

Valley Land Conservancy executive director of the Ojai Valley Land Conservancy, Deborah Pendrey, agrees: “Earth Day is an important reminder for all of us to look and consider our impact on the planet we share.”

Sustainable Partnerships is now a coalition of eight local nonprofit organizations planning this Earth Play event. “Here at the Land Conservancy, Ojai’s only land conservation organization, we’re excited to be able to bring this message of stewardship to our broader community in partnership with these other organizations that share our love of the valley’s views, trails, water and wildlife. We are working to protect our valley’s views, trails, water and wildlife. Wiggins to take over VPS football program

Mike Miller
mike@ojaivalleynews.com

The Ojai Valley Prep School football program recently announced the hiring of a new head coach, Tyler Wiggins, who served as an assistant head coach and defensive coordinator with the Academy of Our Lady of the Rosary from 2005-2009. Wiggins was named head coach of the junior varsity squad this year. Wiggins is a seasoned defensive coordinator who has helped prepare his teams to be successful, both on and off the field. Wiggins also has won several awards as a football coach, including the 2010 CIF Southern Section D2 Coach of the Year. He also has experience as a remodeling consultant for home improvement projects.

Wiggins and his coaching staff are excited to begin preparing for the upcoming season. They plan to implement new strategies and techniques that will help their team become more competitive. They believe that with hard work and dedication, they can achieve their goals.

The coaching staff is looking forward to working with the players and helping them improve their skills. They are committed to providing a positive and supportive environment for the players to grow and develop.

In conclusion, Wiggins and his coaching staff are optimistic about the upcoming season and are eager to see what the team can achieve. They are committed to working hard and helping their players reach their full potential. With a strong defensive coordinator like Wiggins, the Ojai Valley Prep School football program is well positioned to have a successful season.

Saucedo Throws No-Hitter Against Desert Hill

Cindie Saucedo recently threw a no-hitter against the Desert Hill Cougars in a Condor League game. The Spuds went on to win the game 16-0 thanks to the nifty pitching of Saucedo and the team’s timely hitting.

The Ojai Valley Prep School baseball team is off to a great start this season. They have won their first two games of the season and are currently sitting at 2-0 in the Condor League. The team has been led by sophomore pitcher Cindie Saucedo, who threw a no-hitter in their last game against Desert Hill.

Saucedo’s no-hitter was a complete game shutout. She struck out 12 batters and only allowed one walk. The Spuds scored 16 runs in the game, with seven of those runs coming in the 3rd inning. The team was led at the plate by senior catcher and captain Camila Lopez, who went 4-for-4 with a home run and 4 RBIs.

The team continues to dominate on the mound and at the plate. They are looking forward to continuing their success and making a run for the condor league title.

Across the community, seeing students walking on the bike trail, hanging out in the parks, or shopping at Vons, during regular school hours caused some to wonder what was going on last spring break. Many who asked certain kids why they were not in school, one could hear a sigh of condescending indignation that seems to resonate with “Get a clue!” as if the planets have aligned but you somehow missed it.

Spring break excitement hit the Ojai Valley, it’s the biggest thing for many between Christmas vacation and summer Beaches and movie theaters filled up. The waves were good. The sun was out. And the mail is open. Many were lamenting yet another out of town shirts and flip-flips that they haven’t seen in six months. And all of this fun cannot be fully realized without the most important ingredient of all of this annual festivity: nowhere do any people found them selves praying for surf and navigating the “well” end of the week rain that the weather reports predicted. For many, this was a much-needed time off.

Yet, surely that many students face a similar desperation that is combated with stress. A by-product of living in the “Information Age” is that there is more demand to be learned than in any previous generation. We expect them to understand the philosophers and keepers of history, their ideas and circumstances that old men and the new, to be as conversant in the biographies of Plato and Napoleon, as Gandhi and Bill Gates, and to be tech-savvy, knowing their way around their phones, under the hood, and in the tool shed. We don’t understand why most teenagers do n’t know cultural icons of the previous era because we expect that they be conversant in past as well as contemporary issues. When Elizabeth Taylor recently died, most young people said “Who?” Some presumed you were confusing her with Taylor Swift.

It was out. And the mall is closed but you somehow missed it. We are seeing youth rocket in the Bible’s “information age” that is born out of a church and the Ojai Valley Ministerial Association, not the Ojai Valley News.

Jews for Jesus visit Holy Cross Lutheran

Tuvya Zaretsky will lead a model Seder (Passover dinner) Tuesday at 6:30 p.m. at Holy Cross Lutheran Church, 1223 E. Mariposa Highway. All are invited. RSVP to Dan Nelson at 805-362-3662 or holycrossojai.org/contact. Donations are welcome. Zaretsky is pastored within traditional Judaism in northern California where he attended Hebrew school and was bar-mitzvahed. In 1970, while searching for a spiritual home, he found the belief to his spiritual quest in the Bible. He has been a member of the church since 1973, and is currently chair of the board of Jews for Jesus, Israel.”

Jews for Jesus is an international, interdenominational missionary organization founded in 1967 with the stated purpose of reaching the “love everybody” people of the modern world with the message of Jesus. They believe the New Testament is the inspired word of God and that it is the primary source of information on matters of faith and practice for all Christians. These people believe the Bible is the authoritative word of God for the Christian church and that it provides all that is necessary for salvation and Christian living. They seek to present the Bible’s message to people of all backgrounds in a way that makes it clearly understandable. They believe that the Bible contains all that is necessary for salvation and Christian living. They seek to present the Bible’s message to people of all backgrounds in a way that makes it clearly understandable.

Tuvya Zaretsky chairs the board of Jews for Jesus, Israel. For Jews for Jesus, Zaretsky serves as the national liaison in light of the Jewish people’s current division, to maintain this body’s “believer-like” character. A Tuesday night Bible study for those who think that Christianity contradicts the meaning of Judaism, the Jews for Jesus say there are answers, which their representatives will be held to discuss after the presentation.

You should like to make a difference by helping teens. Join us in creating a better out there.
